They both love children and have a strong desire to become parents again soon.

**Feelings About Children / Reason for Wanting to Adopt:**

### **Attitude of Family Members Toward Adoption – Motivation and Readiness of Applicants:**

The \_\_\_\_\_ friends and extended family members are very happy that they have decided to adopt a child. They have been supported whole-heartedly by their families and close friends who have all been enthusiastic and excited throughout the process thus far.

\_\_\_\_\_ and \_\_\_\_\_ have been counseled about the domestic adoption process, its costs and potential difficulties, and they report that they are emotionally and financially prepared to deal with these challenges. They have been informed that the placement of an out-of-state child must be approved by the Interstate Compact Office before the child can cross state lines and go into the adoptive home. \_\_\_\_\_ and \_\_\_\_\_ are aware of the post-placement assessment requirements and are prepared to fully comply.

**Type of Child Desired and Expectations of the Child:**

The \_\_\_\_\_ are interested in adopting a newborn to 24 month-old male or female child of full Caucasian heritage or a biracial child of Caucasian and Hispanic, Asian, African American, or American Indian heritage. The couple is also prepared to consider other issues on a case-by-case basis. They are interested in adopting twins if the opportunity arose.

The \_\_\_\_\_ feel that if they are given the opportunity to adopt a child of a different race, they have the knowledge and desire to provide the child with a loving, stimulating home, which will include experiences from his or her ethnic background. \_\_\_\_\_ and \_\_\_\_\_ understand the importance of emphasizing heritage and ethnic background and the correlation to healthy self-esteem. They realize that the child will know them as his or her parents but experiencing his or her ethnicity is a vital piece that must not be overlooked.

\_\_\_\_\_ and \_\_\_\_\_ realize that each child is unique in personality and development. They would not have unrealistic expectations for their adopted child and would ensure that he is provided with optimal medical care. They are invested in providing the child with a loving, stimulating environment to foster healthy bonding, growth, and development.

**Age of the Adopted Child in Relation to the Ages of the Applicants:**

\_\_\_\_\_ and \_\_\_\_\_ are both at appropriate ages to adopt and parent a very young child.

**Attitude of Adoptive Family Towards the Birth Parents:**

\_\_\_\_\_ and \_\_\_\_\_ are committed to rearing an adoptive child as their own but being open and honest about their child's adoption by talking about it at an early age. They plan to speak positively about the child's birthparents and answer any questions honestly. They feel that open communication about the birthparents is best to encourage the development of healthy self-esteem and positive self-identity in the child.

\_\_\_\_\_ and \_\_\_\_\_ are willing to maintain ongoing contact with birthparents through pictures, cards, and letters to encourage the development of healthy self-esteem and positive self-identity in the child. \_\_\_\_\_ and \_\_\_\_\_ are most interested in an open adoption if all parties are in agreement.

**Verifications:**

\_\_\_\_\_ and \_\_\_\_\_ submitted fingerprints to the FBI for a national background check. Their reports were received on December 28, 2010 and indicated no arrest record for either of them. Criminal background check dated 11/1/10 for \_\_\_\_\_ and 11/4/10 for \_\_\_\_\_ from the Wake County Clerk of Court indicating that neither one has any criminal record. These records indicate no charges of child abuse or neglect.

The State of North Carolina does not have a child abuse clearance system in place. The North Carolina Department of Health and Human Services maintains a central registry of abuse, neglect, and dependency cases; however, under N.C.G.S. Section 7B-311 and 10 N.C.A.C. 411.0102 the information contained within the central registry is confidential and cannot be shared for adoption purposes. Accordingly, A Child's Hope is unable to fulfill any requests for clearance.

However, private adoption agencies are able to access a system called the Responsible Individuals List. This listing contains names of all people who have abused or neglected a child from May 2006 until the present. Neither \_\_\_\_\_ nor \_\_\_\_\_ was listed as a responsible individual in this listing. \_\_\_\_\_ and \_\_\_\_\_ informed the agency in writing that they are not the subjects of any CPS Assessment and that they will notify the agency if that occurs prior to the entry of the final decree of adoption.

During the course of the Preplacement Assessment, the social worker individually asked Mr. and Mrs. \_\_\_\_\_ if either of them has ever been denied approval as a prospective adoptive parent or been the subject of an unfavorable Preplacement Assessment. Mr. \_\_\_\_\_ replied that he has never been denied approval as a prospective adoptive parent or been the subject of an unfavorable Preplacement Assessment. Mrs. \_\_\_\_\_ replied that she has never been denied approval as a prospective adoptive parent or been the subject of an unfavorable Preplacement Assessment.

The social worker also individually asked Mr. and Mrs. \_\_\_\_\_ if they have any history of child abuse, sexual abuse, substance abuse, or domestic violence, as either a victim or perpetrator, even if it did not lead to an arrest or conviction. Mr. \_\_\_\_\_ replied that he has no such history. Mrs. \_\_\_\_\_ also replied that she has no such history.

\_\_\_\_\_ and \_\_\_\_\_ were individually asked if either of them has ever been the respondent in a domestic violence proceeding or a proceeding concerning a minor who was allegedly abused, dependent, neglected, abandoned, undisciplined, or delinquent, and the outcome of the proceeding; or whether the individual has been found to have abused or neglected a child or has been a respondent in a juvenile court proceeding that resulted in the removal of a child; or has had a child protective services involvement that resulted in the removal of a child. \_\_\_\_\_ and \_\_\_\_\_ each individually denied any such involvement. \_\_\_\_\_ and \_\_\_\_\_ also individually stated that neither of them has ever been charged with anything more serious than a minor traffic violation.

### **Agency Evaluations and Recommendations:**

\_\_\_\_\_, age 41, and \_\_\_\_\_, age 43, have been happily married for over 12 years. They became interested in adoption as a wonderful option for them to parent another child together. They appear to be a friendly, dedicated, loving couple with strong family values and a warm home in which they desire to raise a family.

\_\_\_\_\_ and \_\_\_\_\_ have been found to be physically, mentally, and emotionally ready to be adoptive parents. They are recommended for the adoption of a newborn to 24 month-old, male or female, child of full Caucasian heritage or a biracial child of Caucasian and Hispanic, Asian, African American, or American Indian heritage. This recommendation also includes twins if the opportunity arose.

A Child's Hope, LLC has complied with the rules and regulations of the State of North Carolina Department of Human Resources. A Child's Hope is fully licensed to recruit, screen and select adoptive parents, to place children, and to accept children for adoptive services.
